

TREE REMOVAL NOTICE

WALDEMAR PARK

10 STATION STREET, WALDEMAR

The Township has retained a contractor to remove trees within the area outlined in blue above to facilitate geotechnical work needed to complete the new storage expansion planned for Waldemar's Water System. The removal of the trees to facilitate the expansion of the storage system was identified in the Waldemar Water Storage Municipal Class Environmental Assessment completed in 2019.

The tree removal is planned to take place during the week of March 15-19 over a duration of a day, pending weather. For safety reasons during clearing operations the access road into the park will be temporarily closed.

Should you have any questions, please contact the Township's consulting engineering firm, R.J. Burnside & Associates Limited who will be completing the design of the project, Carley Dixon or the Township's Chief Administrative Officer, Nicole Martin.
