**Re: Centurian Estates Subdivision – Cachet Developments (Waldemar) Inc.
Township of Amaranth
Resident Construction Notice for 9-Line Closure**

We wish to inform you that the 9-Line reconstruction works are scheduled to commence the week of July 31st, 2023; weather permitting. There will be a full road closure implemented to facilitate the above-said work between County Road 109 and Station Street. We anticipate that the full closure will be in effect till Sep 30th, 2023; weather permitting. All traffic during this period will be detoured through Station Street and County Road 109. Please see attached detour plan for further information.

Site safety is our prime concern and we ask that you consider the following:

- Take extra care when driving on detour roads and expect some delays due to a minor increase in traffic volume.
- The contractor will have personnel on-site to facilitate access to and from driveways as it will be restricted for residents of 9-Line within the construction area.
- The contractor is aware of the Townships' noise by-law requirements restricting construction time from 6:00 am to 11:00 pm. The contractor's typical working hours are between 6:00 am to 06:00 pm but may vary from time to time depending on weather and the work taking place.
- At the end of the work day, the contractor will ensure those residents who access 9-Line in the construction area have access to their properties.

If you have any questions or concerns, please feel free to contact us.
