Waldemar WWTP Class EA Process

MCEA Process (Integrated Approach)

Planning Act Process

Phase 1 – Prepare Problem Statement

Combined application submitted for OP and ZBL amendments, and draft plan of subdivision. Township advised that application is incomplete.

SPL/CCTA issue Notice of Commencement – Including notice of intent to use Integrated Process

Submit documentation to complete planning application to Township: Plan to conduct Class EA to resolve wastewater servicing approach and Problem Statement; and plan to work with Township Engineer to resolve water servicing approach.

Phase 2 – Alternative Solutions Assessment of wastewater alternatives

SPL/CCTA draft of Notice of PIC #1 (combined Notice of Application and Public Meeting), and Township issues Notice.

PIC #1 – Combined public meeting for Planning Act application and wastewater Class EA. Includes presentation of alternative solutions for wastewater servicing

Phase 3 – Alternative Design Concepts. Assessment of wastewater design concepts

Township decision – draft approved with conditions or refused

PIC #2 – MCEA process only. Presentation of design concepts

Notice of Decision sent to SPL and those requesting notification (*opportunity for appeal to OMB).

Phase 4 – Environmental Study Report

Final approval and registration

Notice of Completion and 30-day review period (*opportunity for Part 2 Order request to Minister)

Phase 5 – Implementation. SPL may proceed with wastewater project once all necessary Planning Act approvals are obtained, and the Integrated Planning Process as per MCEA is complete.
